### **Call for Project Proposals 2022**

The Moi African Cluster Centre (Moi-ACC) announces the availability of funds for new short-term research projects with start dates between 20 August 2022 and 20 November 2022. We solicit proposals that complement our current research projects and/or open new thematic avenues within our broader conceptual framework. While all Moi-ACC Principal Investigators are eligible to apply, we specifically encourage those not yet involved in Cluster-funded research to submit proposals that demonstrate how they will contribute to the further development of the conceptual and theoretical agenda of the Cluster. Researchers who are actively involved in or are already aligned to Research Sections will also be considered for funding. Each project will be funded up to a maximum of Kshs.200 000. Please, attach a budget.

Projects should meet the following criteria:

- 3- 4 months in duration
- Possess a clear nexus to the thematic fields covered in one or more Research Sections
- Visibly engage with and advance the Cluster's core concepts of multiplicity, relationality, and reflexivity

Apart from the above criteria, we also welcome projects that widen the scope of the Centre by exploring new thematic territories. Where possible, Projects are also encouraged to use research assistants, early career researchers, and doctoral students.

The absolute deadline for all applications is 1 August 2022. Address all applications via email to:
